SUMMARY

Software engineer with a proven ability to deliver robust, effective products in collaborative settings under strict and often tight time constraints. Developed many Shopify websites, apps, and microservices, to drive ecommerce operations and analysis for multiple entities, and ultimately facilitated the sale of \$7M+ in digital revenue annually. Always seeking personal growth, I expanded my coding acumen through a 1,000+ hour coding Bootcamp focused on Javascript, where I was invited to return as a teaching assistant. I am now eager to tackle more complex challenges and continue to find ways to build Javascript solutions for real-world problems.

SKILLS

- **Languages:** HTML, CSS, JavaScript, Typescript
- **Frameworks:** Node.js, Express.JS, Remix
- **Libraries:** React, jQuery
- **Databases:** MongoDB, SQL
- **Authorization:** Passport.JS, Bcrypt
- **Testing:** Mocha, Chai
- **CI/CD:** GIT, Heroku

In a developer role at your company I will...

- Code within company coding standards and styles.
- Write fully automated code tests in adherence to best practices.
- Learn how to leverage the current CI/CD pipeline in place.
- Build responsive frontend designs to spec per the UX design.
- Build out API routes per RESTful design structure.
- Diligently prioritize multiple projects to ensure timely results.
- Be coachable and accepting of constructive criticism.

EXPERIENCE

JLB Companies - Web Developer

Salt Lake City, UT Dec 2023 - Present

- Delivered full stack Shopify solutions using best practice, ensuring a positive user experience.
- Optimized Shopify native reporting features using a custom Shopify app in order to deliver KPIs to a group of business analysts.

TechTAC - Operations Analyst

West Valley City, UT Nov 2022 - Dec 2023

- Managed extensive data for a manufacturing company, including a HubSpot CRM, sales and revenue data, product data, and production data.
- Created daily reports using Excel in order to consolidate KPIs for the operations team.
- Drove company budget considerations thanks to revenue data and projections, and reconciled real life data with previous projections to keep our teams on track for 20% revenue growth year over year.

JLB Companies - Digital Commerce Manager

Salt Lake City, UT Nov 2018 - Dec 2022

- Managed the development and deployment of multiple Shopify stores from start to finish, and incorporated necessary apps to meet user requirements.
- Worked closely with the marketing teams to capture customer data, improve user experience, and promote products on a multitude of digital platforms using Shopify product data.

PROJECTS

Golf Course Ranker. (<https://gcr-7rlp.onrender.com>)

Remote Dec 2023 - Present

It allows users to rank their favorite golf courses based on a variety of criteria, and then browse courses based on other user's rankings. In building this web-based application, I displayed a working knowledge of HTML, CSS, JavaScript, React.JS, Node.JS, MongoDB, Chai, Bcrypt, JWT, and RESTful methods to develop frontend design, authentication, data management, and the API framework.

- Constructed API following RESTful standards, deploying the tool to Render.
- Addressed authentication and security concerns with the Bcrypt library and JWT tokens.
- Created accessible, dynamic, and responsive front-end design using HTML wireframes, CSS styling, and eloquent JavaScript.

EDUCATION

V School Coding Bootcamp

Remote Mar 2024

Learned industry best practices and practical software development standards with a focus on HTML5, CSS3, JavaScript, Node.JS, React, REST APIs, and MongoDB. Created and deployed mobile-first applications while learning new languages and frameworks by collaborating every week with a senior web developer.
